

# CLONES / SYNTHETICS / ORGANIC ROBOTIDS

These past few weeks we have been learning more and more things that have been hidden or not so plain to see in the public eye. As we near the end of the age of grace God said that knowledge shall increase. **(Daniel 12:4)** I am hoping by exposing the things that I have been speaking about, our knowledge not only of God's Word and His plan for our lives is increasing, but also of what the enemy is up to.

**Peter David Beter (June 21, 1921 – March 1987) was an American attorney and financier.**

Dr. Peter David Beter

He ran for governor in 1968 in the Republican Party primary in the state of West Virginia (although he was formerly a Democrat), but lost. Politically, he was a staunch admirer of ex-Alabama governor George Wallace for his ethics; Beter also drafted Wallace as the American party candidate in 1973 but numerous republicans opposed such efforts. Nonetheless, he later became a member of his Draft-Wallace committee.

He was the general counsel for the American Gold Association (now called the Gold Prospectors Association of America) from 1958 to 1961. In 1961, he was appointed by President John F. **The AUDIO LETTER cassette tape reports were recorded over a period from June, 1975, to November, 1982, by Dr. Peter Beter.** Each AUDIO LETTER tape report is approximately one hour in length. The basic schedule of release was once a month, but the exact date of release each month was flexible to accommodate events. There were also two periods during which the AUDIO LETTER reports were suspended temporarily. The first, which extended from May to August 1977, separated AUDIO LETTER issues #24 and #25, and took place due to an action campaign by Dr. Beter with his listeners. The second suspension extended from February to June 1980, and separated issues #54 and #55. It was brought about by a major heart attack which Dr. Beter suffered while in the midst of recording AUDIO LETTER #54.

Dr. Beter terminated his AUDIO LETTER cassette tape report series in November, 1982, after recording AUDIO LETTER #80. Having fought heart-related ailments for years, his health was declining. After conferring with doctors, he decided that the time had come to discontinue recording the tapes.

**The Dr. Beter AUDIO LETTER series grew out of Dr. Beter's collaboration with supporters who first learned about Dr. Beter by way of radio talk shows in 1974. At that time Dr. Beter was in great demand to appear on talk shows nationwide, which he did in most cases by long-distance telephone hookup from his**

### **Letter # 46**

My friends, since World War II and before, scientists the world over have been probing for the basic secrets of life itself; and in this field as in others, progress has been much faster than the public has been led to believe. Today it's common knowledge that heredity is governed by something called genes, yet barely a generation ago this relationship was only beginning to be suspected. When it was suggested in 1944 by a theoretical physicist, Erwin Schrodinger, it was a novel idea. Beyond that no one was too certain what genes were aside from huge molecules or clusters of molecules. Some thought they were molecular chunks of protein, some thought they were something else. When Schrodinger's ideas about genes were published, World War II was still raging and basic scientific research was on a back burner; and yet, barely a half a dozen years later, researchers were zeroing in on a building block of life even more basic than genes.

The solution was found to this revolutionary puzzle in April 1953 at Cambridge University in England. Scientists James Watson, Francis Crick, and Maurice Wilkins were later to share the Nobel Prize for solving the puzzle.

**James Dewey

(1928 -)**

**Maurice Hugh  
Frederick Wilkins  
(1916-2004)**

They had discovered the molecular structure of DNA, the famous “double helix.”

In 1968 Watson published a book titled “THE DOUBLE HELIX”, published by Athenaeum, New York, N.Y.

To understand the overwhelming importance of the double helix discovery in 1953, one need go no further than these few words on the jacket of the book: “DNA is the molecule of heredity, and to know its structure and method of reproduction enables science to know how genetic directions are written and transmitted, how the forms of life are ordered from one generation to the next.”

It has now been over a quarter century since the crucial discovery of the DNA double helix, and since then research in molecular biology has not been standing still but speeding up. **In some cases research has gone in directions which are deliberately sheltered from publicity because of the fear of public reaction.** Not so long ago, for example, universities doing research into artificial microbes found their neighbors in an ugly mood when they found out about it. Test tube babies are now a reality,

and that began not long ago in England where the mystery of DNA was first unraveled. **Then, of course, there are clones—that is, creatures which are reproduced by artificial means and which are exact duplicates of an original.**

**Psalm 139:13-16** – For You have possessed my reins: You have covered me in my mother’s womb. I will praise You; for I am fearfully and wonderfully made: marvelous are Your works; and that my soul knows right well. My substance was not hid from You, when I was made in secret, and curiously wrought in the lowest parts of the earth. Thine eyes did see my substance, yet being imperfect; and in Your book all my members were written, which in continuance were fashioned, when as yet there was none of them.

**Genesis 29:31, 30:22-23** – And when the LORD saw that Leah was hated, He opened her womb: but Rachel was barren. And God remembered Rachel, and God hearkened to her, and opened her womb. And she conceived, and bare a son; and said, God hath taken away my reproach:

Clones of all kinds of animals have been produced successfully in the laboratory, but that is not what bothers people. In the recent past it has been claimed that human clones are also possible and that some may already be in existence.

**\*\*Remember the government (the Illuminati – elites) is at least 30 years ahead of us. They make movies, books, magazines to put information out to the public to see how we will respond.\*\***

**These last claims about human clones have been ridiculed, denied, and suppressed by all kinds of officials—the reason is that the idea of duplicate human beings impinges upon a super-secret realm of Intelligence activities by both Russia and the United States. True clones are not involved, but something that bears a superficial resemblance to cloning is going on; and the last thing the powers-that-be want is for you and the public to have any hint about what is afoot.**

In Russia as well as in the West, research has been under way for many years in biological synthesis—that is, artificial life forms; and according to high intelligence, a stunning break-through took place in Russia some years ago. The Russians refer to this break-through as a “providential discovery”, something they learned almost by accident. They discovered the key to creating what are known as “organic robotoids.” An organic robotoid is an artificial robot-like creature, it looks and acts exactly like a human being and yet it is not human.

A robotoid is alive in the biological sense but it is an artificial life form. Robotoids respond to conventional routine medical tests in the same way as humans do; they eat, they drink, they breathe, they bleed if cut; and they can be killed. Robotoids can also think, but they think only in the sense that a computer thinks. Like any other computer, the brain of a robotoid has to be programmed for each assignment it is given; but unlike many electronic computers, the biological computer brain of a robotoid possesses an enormous memory. As a result, robotoids can be programmed to communicate and think in such complex patterns that they act human.

Organic robotoids are remarkable creatures, but they have many drawbacks. They don't grow or reproduce but must be manufactured one by one in the desired form. They also have a very limited life span, measured in months or even weeks, depending upon how they are utilized. This is due to the fact that their metabolism, while it resembles that of humans, is very inefficient. A robotoid can be manufactured on very short notice, a matter of hours; but after a few weeks or months it suddenly begins to degenerate physically and mentally.

**When that takes place, the robotoid has to be removed from service and disposed of. To extend its useful life as much as possible, a robotoid is customarily cooled down to slow its metabolism between assignments.**

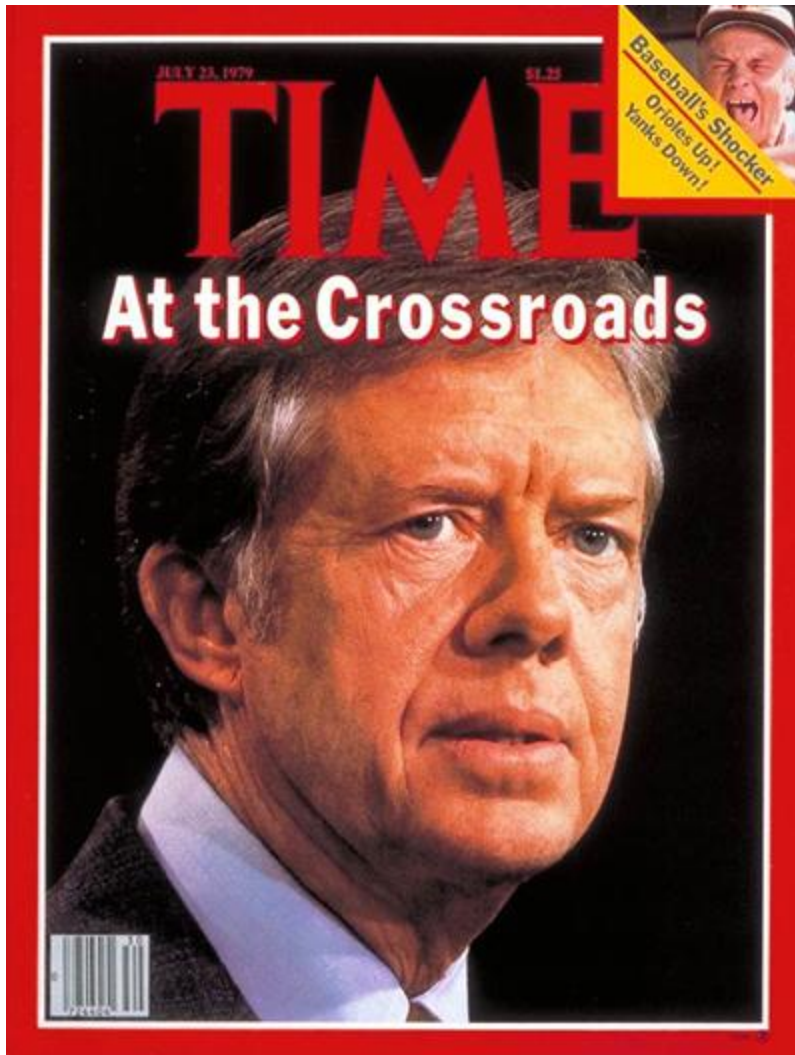

Organic robotoids are extremely expensive, troublesome creatures to produce and utilize; and robotoid capabilities do not exceed those of human beings. All they can really do is simulate human beings; but, my friends, for Intelligence purposes that's all they have to do! **To produce an organic robotoid it is necessary to have a pattern to go by. The pattern required is that of genetic coding taken from a few cells from the body of a human being.** In this respect the Russian technique sounds like cloning, but the technique itself is totally unrelated to genuine cloning. **A robotoid is produced within a matter of hours, and it simulates the human donor at his current age.** Like any man-made copy of anything, a robotoid is never a perfect copy of the human that is to be simulated; there's always small discrepancies in appearance and behavior, but these are seldom great enough to arouse any suspicion.

When the initial Russian break-through in robotoids took place years ago, the Rockefeller-Soviet alliance was still functioning. The Christian group who now rule Russia were already secretly more powerful than the Bolsheviks, but the final overthrow had not yet taken place. When the robotoid break-through took place, they moved quickly to minimize the amount of information obtained about it while those Bolsheviks still retained positions of power. They also tried to prevent information about it from leaking through Intelligence channels to the CIA, nevertheless partial information did reach the CIA and the late four Rockefeller brothers.

By early 1975 the Russians were known to have successfully created at least one organic robotoid in the laboratory. Meanwhile the CIA was coordinating a feverish research effort aimed at accomplishing the same feat. Up to now, robotoid technology in the United States is far behind that of Russia. The American capability in robotoids is not even close to being operational, whereas the Russians are deploying them right now.

The most important single personality to watch is the one labeled "Jimmy Carter."

July 1979 – No bags under eyes, more squared up nose.

Periodically there will be small changes in his appearance and behavior as one robotoid wears out and is replaced by another; and by listening to the Carter robotoid, you can get some hints about what the Kremlin is up to.

Last month I revealed that an Intelligence war of “doubles” had erupted in the United States. President Carter, Vice-President Mondale, and their wives had fallen victim to this war of “doubles” as their Easter breaks, away from Washington were ending. Now I’m sorry to report that Amy Carter, Billy Carter, Lillian Carter, and Hugh Carter all died soon after Jimmy and Rosalyn did. All of them, including Amy, have been replaced by “doubles”; but instead of the

Bolshevik “doubles” who had been waiting in the wings, those we are seeing are Russian organic robotoids.

**\*\*These people are committing murder to drive their agenda which is power and New World Order.\*\* ( Rev. 13:12,16-18 )**

The voice of the Jimmy Carter “double” which was reproduced last month in Audio Letter No. 45 is the voice of a robotoid. That robotoid was the one who was dazzling everyone with his vigorous new image. Only a few months ago Carter had been limping around with what we were told were severe hemorrhoids; but now, out of the blue, here was a Carter who was a powerhouse—hiking, fishing, and jogging ten miles a day, he also looked and sounded younger than before—that was the first robotoid “double” for Carter which I referred to last month as Carter No. 2.

By the time I recorded Audio Letter No. 45, there was also another Carter robotoid making the rounds—this one, Jimmy Carter No. 3, was the one that attended the Holocaust observances in the Capitol building here in Washington. By contrast with Carter No. 2, No. 3 looks noticeably older and more haggard. As I mentioned earlier, robotoids are very good copies but they are not perfect, no two look exactly alike. Last month I mentioned that the “doubles” for Jimmy and Rosalyn Carter were spending a great deal of time at the Russian Embassy here in Washington instead of at the White House. Now I can tell you why. Robotoids are programmed at the Embassy for each assignment. Between assignments they simply rest there in a state of reduced metabolism.

Up until now the Russians had been keeping the robotoid capability under wraps, and there was a real question whether they would ever be used; but the Bolshevik coup d’etat convinced them the time had come to deploy the robotoids. The Russians have already altered the course of world events in dramatic ways.

**Luke 8:17** – For nothing is secret that shall not be made manifest; neither any thing hid, that shall not be known and come abroad.

It was decided that Paisley should go to Jerusalem the following day, April 27, but accompanied by an agent of the KGB since the Russians did not entirely trust Paisley. The Rockefeller robotoid was to return to Jerusalem that day also and

put in an appearance along with Paisley. In addition it was decided that Jimmy Carter No. 2 should visit Jerusalem in a quick secret trip by Cosmosphere Transport. David Rockefeller No. 2 was then dispatched to Washington with instructions for Jimmy Carter No. 2. By the evening of April 26, Carter No. 2 was at the Israeli Intelligence Station outside Jerusalem. At the same time Carter No. 3 was keeping up appearances here. Rockefeller No. 2 was seen at the World Trade Center in New York but left that night for Moscow and then Jerusalem.

David & Nelson Rockefeller

While Jimmy Carter No. 3 was appearing at the Holocaust ceremony in Washington, Carter No. 2 was in Moscow having already been to Jerusalem; meanwhile Paisley and Rockefeller No. 2 were in Jerusalem.

Paisley's testimony was being used to convince the Israelis of the extent to which America's military security has been breached. Carter No. 2 likewise was there to prove that Bolshevik support for the Middle East war plan was being removed as a factor in Washington. Late on the 27th of April Rockefeller No. 2 began encountering questions and problems which he was not programmed to handle; so obeying standing instructions for such an event, he departed for Moscow for further programming.

On the 28th he went to the Russian Embassy in Washington. That night he returned to Jerusalem. For further impact on the Israelis, the Carter No. 3 robotoid had been dispatched to Jerusalem along with Rosalyn No. 2. Paisley had remained in Jerusalem all three days. Meanwhile here in the United States Carter No. 2 and another new robotoid, Rosalyn No. 3, were on duty. On April 29 Paisley left for Leningrad and the robotoids left for Washington—the first robotoid shuttle to the Middle East was ended after five days, in total secrecy.

As April was ended and May was getting under way, the main focus of activity by the Russian robotoids was here in Washington. On April 30 a Carter robotoid surprised everyone with an uncharacteristic response to critical statements by

Senator Ted Kennedy. He said, “That is just a lot of baloney.” “That just wasn’t like Carter”, people said. The next day the Brzezinski and Vance robotoids had their turn to surprise everyone. That was the day they abandoned their usual fisticuffs in favor of sweetly humming the same tune to newspaper editors.

Within a few days one of the men in the position to observe Carter most closely will be transferred out and replaced with someone new—that’s the President’s Naval Attache, the man who carries the so-called “Black Bag” for nuclear war. On May 16 it was reported that seven aides to National Security Chief Brzezinski are quitting—and so it goes.

#### **LETTER #47**

In the past two or three months, I have focused attention on the Rothschilds and their bid for renewed power; and as if on signal, the Dr. Beter AUDIO LETTER is now under attack supposedly by anti-Rothschild groups. **False opposition, my friends, is a trick even older than Machiavelli. The hate campaign now under way will do its damage but it will not stop the AUDIO LETTER. My employer is our Lord Jesus Christ, and my AUDIO LETTER series will not end until it is time to end. This month I am beginning the fifth year of my AUDIO LETTER.**

**Rom.8:31** – What shall we then say to these things? If God be for us, who can be against us?

The following is from a book: “THE DYNAMICS OF CHANGE” published in 1967

Under the heading **MAN-MACHINE SYMBIOSIS:**

“...Computers exist which can learn, remember, see, seek goals, reason, walk, sing on key, talk, be irritable, play games, grasp, adapt to an environment, and even design improvements in themselves...”

Finally, under the heading **HUMAN ROBOTS:**

“...An electronic circuit that imitates two neurons, the cells of the human brain, has been built, and has enabled a robot to deal with some unexpected situations, but the neuron structure was bulky. The brain has billions of neurons, meaning an incredible miniaturization job will be necessary before truly human robots are developed.”

The developments that were destined to lead to Russia’s breakthrough in robotoid brain research began 32 years ago, in 1947. In that year a Hungarian-born physicist,

Dr. Dennis Gabor, conceived of a way to make three-dimensional photographs called “holograms.”

It was a revolutionary scientific discovery, and it was destined to lead to the Nobel Prize for Dr. Gabor. He did not receive the Prize until 24 years later, in 1971. By then, holograms were a reality in numerous laboratories world-wide; and yet most members of the general public still had not heard of holography. And even today, more than three decades after Dr. Gabor’s original discovery, holography is still unfamiliar to the public as a whole.

Last month I revealed that the Russians can manufacture organic robotoids, which are almost exact carbon copies of real human beings. This is done by a process that simulates the genetic coding of the person to be copied. It sounds a little like cloning, but it’s not. A clone of a human would itself be a human, but an organic robotoid is NOT human. It’s an artificial life form, like an animal in some ways but like a computerized machine in others. Every Russian robotoid has what is called a “holographic brain.” This brain duplicates essentially the entire memory of a person being copied. The key to doing this is a new technique called an “ultrasonic cerebral hologram.”

Using high-frequency sound waves, which are inaudible, a complete three-dimensional picture is made of a person's brain. This is a painless, non-destructive process; and under the proper conditions it can be done without the person even being aware of it.

When an organic robotoid is made to simulate, for example, our late President Jimmy Carter, two major factors are involved. One is the genetic coding required to simulate Carter's appearance, voice, fingerprints, and so on. The other is a holographic image of Carter's brain. This image is a complete record of the neuron patterns which existed in Carter's brain at the moment the hologram was made.

Therefore it contains all of the memory and knowledge Carter had up to that moment. When a Carter robotoid is made, the biological computer in its head is caused to form according to the holographic record of Carter's brain. However, certain portions of the robotoid computer are caused to deviate from the holographic record. The end result is a biological computer which has to be programmed but which contains essentially all of Carter's memory, involuntary mannerisms, and the like.

As a result, a Carter robotoid will automatically do certain kinds of things without the need for specific programming. For example, a Carter robotoid will seem to recognize old friends. That's because the computer memory of the robotoid reproduces Carter's memory of that friend. The holographic process puts it there automatically without the Russian programmers even having to know it's there. Organic robotoids are such amazing creatures that they are still a subject of questioning and debate.

This is true even among the Russian scientists who made them a reality. For example, robotoids seem to have no true instinct for self-preservation. In this regard they act like machines, simply doing as they are told to do. By contrast, both humans and animals generally have the instinct for self-preservation. Robotoids can be programmed for self-preservation, but they are equally willing (if "willing" is the word) to perform suicide missions, exploratory one-way trips into space. I've only one example of this: if a space mission looks too dangerous to risk the life of an experienced cosmonaut, a robotoid can now be used. The robotoid copy of the cosmonaut is already trained the moment it's made, thanks to its holographic memory.

The United States now has a Supreme Court made up of nine (9) Russian robotoids, and now Russia is focusing on the main members of the United States Senate who are opposing SALT II.

## **LETTER # 50**

When I first revealed these things, I braced myself. I knew that many of my listeners would be unable to absorb them; but my reason for doing it was the one I stated then: Without knowing about the robotoids, events would become impossible to understand. Since that time, robotoids in key positions of power have been causing many surprises in the news these days. The strangest surprises of all have been caused by the Jimmy Carter robotoids. In AUDIO LETTER No. 48 two months ago, I detailed the major instability problems the Russians are having with their Carter robotoids. The holographic computer brains of the robotoids include instabilities which were present in the real Carter brain in a way that exaggerates those instabilities. As a result, every so often a Carter robotoid does something so unpredictable that it is dangerous to the

Russians. An example was the famous so-called “killer-rabbit incident” of a few weeks ago. A Carter robotoid told the press in all seriousness that he and his family had been attacked by a swamp rabbit while fishing. Can you imagine?

The Russians want to rid themselves of the nerve-racking problem of the unstable Carter robotoids. Earlier this month, on September 15, an attempt was made to do just that. The alleged President Carter was entered in a foot race, of all things, in the Catoclin Mountains near Camp David. It was a strenuous six-mile course which included much uphill running. Carter robotoid No. 14 was programmed to run at maximum speed and not to let up for any reason. The Russian strategy was simple: Runners who over-exert themselves and who do not stop and rest when danger signs appear can do themselves serious harm. Sudden overheating, dehydration, and heart failure can take place abruptly in extreme cases. Robotoids, as I have explained in past tapes, embody a crude

facsimile of human metabolism, their hearts are relatively weak, and they live for only a few weeks or months, depending on the stress problems.

They have no self-preservation instinct, so Carter robotoid No. 14 was programmed to run like the wind. It was expected that suddenly without warning he would suffer complete heart failure, collapse, and die on the spot. If the robotoid died before aid could reach him, everyone would just accept it as a tragic accident, and the Russians would be rid of the problem of unstable Carter robotoids. But the day of the race dawned cooler than it had been expected by the planners. Carter robotoid No. 14 did collapse,

but did not expire instantly. His face turned a deathly greenish-gray, and he was moaning and incoherent; and yet when the Secret Service men picked him up, his legs kept running as programmed. Finally an ambulance arrived, but Carter robotoid No. 14 did not use it. Instead the robotoid was bundled off in a car to Camp David, and there robotoid No. 14 finally died—too late, and out of public view.

The purpose of the race had been to eliminate the Carter robotoid problem in a way that would leave no questions—that is, sudden death on the spot. But there would have been a storm of questions if Carter’s alleged death had been announced after help arrived and took him away. So after the race, Carter robotoid No. 15 showed up to reassure everyone. He looked nothing at all like the deathly figure who had collapsed just a short while earlier in the race. He looked like a new man, and in a sense he was. The contrast between the dying robotoid No. 14 and the fresh robotoid No. 15 is something you can see for yourself. Just get a copy of Sports Illustrated magazine for September 24, 1979. On pages 16 and 17 you will see the pictures of robotoid No. 14 - stricken, stumbling, mouth agape. Then look at the fresh, smiling picture of robotoid No. 15 handing out trophies on page 19 only a short while later, and then ask yourself: Is this the same man?

My friends, the robotoids are one example of what you need to know to understand the secret war now going on.

## **LETTER # 51**

In AUDIO LETTERS 46 and 47 I reported that robotoid technology in the United States is far behind that of Russia, but now the Bolshevik and Zionist enemies of Russia have achieved their own surprise. The Rothschild interests, which control both movements, have for many years been deeply involved in biological research of all kinds. They have not succeeded in learning the secrets of the Russian robotoids, but they have achieved success with something similar. They are called **“synthetic automatons” or simply “synthetics.”** A Rothschild synthetic is similar to a Russian robotoid in certain ways. Each is an artificial life form designed to simulate a human being, but synthetics also differ from robotoids in important ways. For one thing, they are generated by radically different

techniques. Both utilize genetic samples from actual humans as their starting point, but beyond that everything is different.

The Russian process is a close relative of recombinant DNA techniques involving bacteria. The details of the process are shrouded in great secrecy, but it enables robotoids to be generated from scratch very rapidly. The Rothschild process, by contrast, does not start from scratch. Instead, certain tissues extracted from cattle are the starting point. The synthetic is then generated in a process that changes the genetic make-up in order to simulate a person being copied. It is the outgrowth of a discovery made 20 years ago in France. The experiment involved two species of ducks called khaki Campbells and white Pekins. The landmark duck experiment of 1959 was reported in a book titled "THE BIOLOGICAL TIME BOMB" by Gordon Rettray Taylor. It was published in 1968 by the New American Library, New York, N.Y. Taylor described the experiment in the words, quote: "They had extracted DNA from the cells of the khaki Campbells and had injected it into the white Pekins, thinking that just possibly the offspring of the latter might show some character derived from khaki Campbells.

Khaki Campbells

White Pekins

To their astonishment, the actual ducks they injected began to change. Their white feathers darkened, and their necks began to take on the peculiar curve which is a mark of the khaki Campbell.”

Beginning with that clue of two decades ago, the Rothschild synthetic process has been developed in secret; and now, my friends, synthetics are beginning to appear on the scene.

Earlier this month on October 9, Carter robotoid No. 18 was scheduled to hold a news conference. Three days earlier, Brezhnev No. 2 had made his proposals in East Berlin for military reductions in Europe. Robotoid No. 18 had been programmed to react positively to the proposals, but instead our alleged President said, quote: “I think it’s an effort designed to disarm the willingness or eagerness of our allies adequately to defend themselves.”

The Russians were dumfounded. This was a fresh robotoid, surely the recurring instability problem could not be showing up this fast! After the news conference, he was bundled off for examination and testing, and that produced the second surprise. It was not robotoid No. 18 at all, but a synthetic.

The synthetic was then transported to Novosibirsk for further study. There robotoid scientists were able to establish an important and unpleasant fact: the source of the genetic material used in generating the synthetic had been robotoid No. 18; and whereas the Russian robotoids vary somewhat from one to another, the synthetic was virtually identical in appearance to the missing robotoid No. 18. But an important favorable fact was also discovered—the synthetics are inferior mentally to the robotoids. It is not yet clear how fast the Bolsheviks will be able to deploy their synthetics, but the guerilla war between the Rothschild synthetics and the Russian robotoids is already beginning.

### **LETTER # 53**

- Four nights ago on Thursday, January 17, millions of Americans tuned in the ABC television program "20/20." The program that night presented a heavily-edited interview by the British television personality David Frost. The person interviewed was said to be the former Shah of Iran.

The individual we saw on the David Frost interview looked, sounded, and acted very much like the Shah, but he looked much healthier than the sickly-looking Shah in New York two months ago. This was true even though news reports had been saying the Shah's condition was deteriorating. Almost every time he answered a question the face became expressionless, and the eyes froze into a glassy stare. He spoke slowly, haltingly, as if groping around in a fuzzy memory to find the answers. And time after time he just gave up and said simply, "I don't remember that." Later that same evening ABC presented its nightly special on the Iran crisis.

The program began with some follow-up discussion of the David Frost interview program. Dr. Joseph Sisco, former Under-Secretary of State, was among those asked for his reactions to the interview. Sisco appeared to be shaken by what he had seen. He said the Shah he knew had always been able to discuss the

intricacies of geopolitics, not only as they affect the Persian Gulf but world-wide. By contrast, the man he saw on the David Frost interview was, quote: “Uncertain in his speech; a completely different man from the one I knew.”

Former Shah of Iran and wife Farah Pahlavi with Former President Carter and wife Rosalynn Carter.

Former Shah of Iran in exile in Mexico 1979

My friends, Dr. Sisco could not have been more right. The individual interviewed by David Frost in Panama was not the Shah at all. In fact, he was not even a human being. It was a kind of living robot, known as a “synthetic automaton”, or more briefly, a “Synthetic.” I first revealed last October 1979 in AUDIO LETTER No. 51 that Synthetics were beginning to appear on the scene. They are being deployed as a tool of intrigue by the warlike Bolsheviks here in the United States. They are the Bolshevik answer to another type of biological robot which the Russians began deploying earlier in 1979.

The Russian type is known as an “Organic Robotoid”, and I first made them public in AUDIO LETTER No. 46 last May. Both the Russian “Robotoids” and the Bolshevik “Synthetics” are remarkable creatures. They are manufactured by radically different technologies; but they have one thing in common—they are

both artificial life-forms which live and breathe but have to be programmed like computers, and they are the products of three decades of spectacular scientific discoveries out of public view. I have given a little of the scientific background in AUDIO LETTERS Nos. 47 and 51, but Robotoids and Synthetics remain perhaps the most secret of all Intelligence weapons.

**1 John 3:7-10** – Little children, let no man deceive you: he that doeth righteousness is righteous, even as He is righteous. He that committeth sin is of the devil; for the devil sinneth from the beginning. For this purpose the Son of God was manifested; that He might destroy the works of the devil. Whosoever is born of God doth not commit sin; for His seed remaineth in him: and he cannot sin, because he is born of God. In this the children of God are manifest, and the children of the devil: whosoever doeth not righteousness is not of God, neither he that loveth not his brother.

**Fritz Springmeier** speaking on cloning:

Clones are a carbon copy of a person, implanted in an embryo and fertilized being born as a baby having a normal growth cycle.

The American people have in general been kept in the dark about the limits of scientific developments. The known reasons people have not learned are varied. The Cold War was one reason. Capitalist corporate advantage is another reason. They call it trade secrets. Scientific pride and the ability to outstrip other researchers is another, and for the public just their technical jargon is enough to prevent people from closely watching the level of research going on. But underlying most of the coverup is this: that the overall satanic plan is to keep people ignorant of these scientific advances BECAUSE they are being used quite often to control and manipulate the world.

What has developed is a situation where the American people are no longer in touch with where the elite's secret technology is. It is clear that the elite know this and are aware that some of the "Future Shock" needs to be reduced if they don't want to self-destruct society. You need to be aware (mentally prepared) that most of the readers of this will experience future shock when they read that

cloning of humans is possible & has gone on for decades. **The elite** had a dilemma. If society isn't moved forward to match their secret scientific advances, it will soon be like cave-men meeting modern-day men. Society won't be capable of adjusting--only self-destructing. On the other hand they certainly can't tell us what they are already doing, because they are using this technology against us to control us. For this reason they are giving us **movies** that show us things that they have already invented -- but these are put forth as *fiction* in these Hollywood films. They hope to lesson the **Future Shock**, which their own secrecy has greatly contributed toward creating, while maintaining control over the general population.

This '93 **cloning** was the first publicly revealed & publicly accepted human cloning, but the truth is that it had already been done for about 30 years secretly. In December, 1993's newsletter I had a follow up article on cloning where I reviewed what the media was telling people about cloning after the 'first" human cloning had been announced. My article also discussed the novel Multiple Man which is about how exact copies of the President are made. The book has some surprising similarities with what they actually did with **President Carter!**

For instance, in a book that was published in 1979, **Robert Gilmore McKinnel**, Professor of Genetics and Cell Biology, College of Biological Sciences, University of Minnesota, wrote,

"It has been reported that mice and some large domestic animals have been cloned. Humans have not. Because the reproductive biology of humans... is similar to that of mice and other mammals, it is likely that humans could be cloned."

### **Doubles (look alike)**

There is an ongoing program to find look alikes for prominent people, as well as a program to create secret identical twins (which are separated at birth and never see each other). **George Bush's double was promiscuous**, while George Bush is a pedophile. His double was living in France after Bush was no longer President. By the use of **doubles**, (or one of the synthetics or organic robotoids) **the elite** are able to sneak away and perform satanic rituals.

On certain occasions, if **Clinton** or **Bush** only needed to do low level tasks in front

of the public, they could have their double substitute for them. [The Illuminati](#) working with several organizations has had a look alike operation where doubles of certain key people are found and then used.

In the book *Desert Shield and The New World Order* pub. by Northpoint Tactical Teams, Tipton, NC, if you look on page 32 you will see a picture of the original FDR who had a mole over his eyes and then you will see a picture of the double of Roosevelt who they used, who had no mole and had different ear lobes. **Roosevelt** may have died prior to when it was actually announced. Over the years I have seen numerous photos exposing either the Robotoids or the doubles that they use.

This author's previous S' '93 article had some pictures about the dead Pope Paul VI, who my *Be Wise As Serpents* book said was murdered. This recent Pope was replaced with a double who had had plastic surgery. As a double gets older the plastic surgery will not look as convincing, because time changes people differently. One ex-Catholic said the whole thing *sounded like science fiction*. **It does sound far out at first, but the evidence is there for people to see.**

For myself, the ex-Illuminati have told me about the double's program. From what I understand the double or look-alike program has been more successful than the robotoids and synthetics. The reason is that people live longer and are more dependable in some ways. The project to find look alikes for prominent people has been very successful. Plastic surgery has also been done to help touch up the doubles.

I personally have only been in an underground city in Oahu, HA, but I have spoken to others who are wanting to save humanity and stop the **NWO**, and these witnesses know a lot about the underground facilities. One of the men who betrayed the human race and helped with the cloning was Austrian born **Simon Wiesenthal**.

**Simon Wiesenthal**, was a US intelligence agent with a photographic memory (perhaps a scarred brain stem). Wiesenthal seriously hunted Nazis that were not on the **CIA's** payroll or CIA associated groups. Simon Wiesenthal, under the

disguise of being a great Nazi hunter, actually assisted protecting the **FBI's** and the **CIA's** agents who were Nazi criminals. Wiesenthal tried to stop CBS from doing a show exposing the FBI-Nazi connection.

Jewish Intelligence (the **Mossad**) knew all about the hundreds if not thousands of Nazi War criminals that worked for American Intelligence and the FBI, but never went public about it. Instead they occasionally used the information as leverage against American intelligence.

One of the code no.s for Simon Wiesenthal given by a Monarch slave was something like 063 097. If someone else knows the full and correct code for him, go ahead and share it.

**Unholy Trinity** is a book written about how **the Vatican**, the **US State Department**, and **MI-6** smuggled Nazis out of Germany at the end of WW II. An entire book could be written about the thousands of die hard Nazis who have been working for American intelligence, however Simon Wiesenthal's name is mentioned here because he helped **start the cloning for the worst elements of the NWO**.

My thoughts on these “soulless beings:” They have no thought for life, or preserving their own life. They make the perfect soldiers. They will willingly die or kill others – whatever it takes. Whatever they are programmed to do. We are being deceived by our world leaders and this has been going on for quite some time. At least around 60 or more years. They are trying to keep us in the “dark.” We have come to a time in life that we have got to realize that this is a spiritual battle we are in. Who is giving these sick people the ideas to make all of these soulless beings? Remember: **Eph.6:12** – For we wrestle not against flesh and

blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places.

**John 8:32** – And ye shall know the Truth and the Truth shall make you free.
